IT RENTALS

Our ideologies are based on offering comprehensive solutions and not just mere products. We have some of the most advanced and versatile range of servers, laptops, desktops, printers, workstations and other IT equipment which are readily available in our inventory.

Through our strategic partnership with Rentworks India, we are able to provide comprehensive IT equipment for your short-term as well as long-term requirements and in turn, saving your capital investment by 60-70% annually.

WHY BUY WHEN YOU CAN RENT?

Call Us If Any Of The Below Scenarios Apply To You

- Got a new project and need hardware for temporary period?
- Unsure of a certain market potential and still want to explore?
- Worried about technology obsolescence and want to insulate yourself?
- Running tight on your cash flow or have already overspent your IT budget?
- Servers are down and you want to restore your valuable data?
- Need super processing power for a short term?
- Looking for a temporary application/software test laboratory?
- Want to test software applications on single or various platforms?
- Need to expand your storage unit?

- Need to migrate your important data and need extra hardware for short term?
- You have events, seminars, trade fairs, movie sets and need equipment for specific period?
- Have taken up an outsourcing project that is time bound?
- Suffered from a calamity? Earthquake, fire etc. and can't run your business effectively?
- Need to setup a cost effective disaster recovery site?
- Don't trust assembled hardware to form your IT backbone; looking for branded products?
- Your hardware supplier is unreliable or cannot supply you on target date?
- Want to start your new office and require your equipment the SAME DAY?

PRE OWNED EQUIPMENT

ACT GREEN   PLAN GREEN   THINK GREEN   LIVE GREEN

Buy Pre-owned Equipment

Buying 'used' just makes more sense and you will not be alone. Worldwide, more companies than ever are looking at refurbished computer equipment to help squeeze their IT budget. Even Executives are discovering that pre-owned equipment offers the same reliability and performance as new equipment, with added customization options. Every piece of our Certified Pre-owned Equipment is refurbished, tested and certified using rigorous processes and original manufacturing standards.

Think long-term, because used equipment offers the same quality product to achieve a better Return on Investment (ROI = Capital Cost – Refurbished Cost). Where new equipment generally takes weeks or even months for order processing & delivery, Thakrar Infotrendz can ship your desired customized hardware purchase at your doorstep within 4 working hours, thanks to our huge inventory of equipment.

Dispose Your Excess IT Inventory

Thakrar Infotrendz is also the preferred buyer of pre-owned IT equipment to many large organizations providing great resale value, thanks to our tremendous network across India, which delivers service and solutions designed to generate value for our clients on used, unwanted or obsolete IT equipment.

IT Options and Spares

Thakrar Infotrendz is well-equipped to provide Computer Server Parts, Replacement Parts, Upgrades, Storage Solutions, Discontinued Parts, Spare Parts, Components, Peripherals & Systems and hard-to-find Server Service Parts. These Parts help you to add new life to your IT equipment without being a huge burden on your pockets. So when any of your IT equipment reaches its end-of-life, is discontinued, becomes obsolete or otherwise faces a glitch because of the lack of availability of the required spare parts, call Thakrar Infotrendz. We are the preferred buyers of many of the Resellers, Repair Houses, AMC Service Providers, etc for IT Options and Spares.
